

### **“RINO Elitists and the Ruling Class”**

I don't like Senator Lindsay Graham (R-SC) any more. Actually, I don't trust Senator Lindsey Graham any more either. Like John McCain, Snowe, Collins, Murkowski and others, he has clearly sipped the tainted Kool-Aide from the fountain of political elitism; that sincere belief that only the elites, like him, can really know what is best for America and Americans. "Trust me, I'm from the government!" It's his closet fascist beliefs that have enable him to go along with the Socialist-Progressives agenda of wealth distribution and meddling control of every aspect of American's lives, that is quickly making the Republican Party a simple clone of the Democrat Party; but worse, is bringing America closer to the point of dissolution and probable conflict.

Senator Graham has demonstrated he does not intend to carry the conservative banner that believes in limited government, lower taxes and more individual freedoms as given to us by God and codified in our Constitution as natural rights. From his own mouth issue silly nonsense supporting the current governments continued pursuit of unsustainable spending programs including the asinine climate control issues based upon discredited theory's of global warming, as well as amnesty for illegals. What does he possibly think granting American citizenship to illegals will do for the Republican Party?

The recent series of primary wins by candidates supported by TEA Party's around the nation has clearly alarmed Senator Graham and those other RINO Senators that think like him. This has caused the good Senator to castigate those concerned Americans, as "out of touch" with reality. It's clear who is out of touch with reality, It's Senator Graham, McCain and the other Republican elitists in Washington. Graham silently supports Democrat economic policies that are unsustainable. Because he has no answers to criticism directed against him for his positions (and his votes), he does what Liberals do when they can't win an argument on the facts, he resorts to name calling and trying to reduce his detractors to the level of mere innocents who could not survive without their guidance. "Leave it to the professionals", he asserts, to take care of your legislative business. We know best! Really, we do!

Sen. Graham was one of nine GOP Senators who voted for Sonia Sotomayor to become a Supreme Court Justice after she assured him, during her confirmation hearings, that she respected the "Heller" decision on the 2nd Amendment rights for citizens to keep and bear arms and then promptly stiffed him with a dissenting opinion in the "MacDonald" case. Now comes Elena Kagan seeking confirmation of her liberal views to sit on the Court and Senator Graham has indicated he will support her as well!

Further alarming is Graham's support for other taxing vehicles which will, when all the 'progressive' thinkers of both political party's come together to agree, will result in the hand of government being shoved even deeper into our pockets to extract even more "voluntary contributions" for enriching the governments depleted coffers. Let's cut to the chase, shall we? Graham is a RINO. So is John McCain, Olympia Snowe, Susan Collins and Lisa Murkowski. They are desperate to stay in office as part of the ruling class for their own power hungry reasons. To perform as statesmen is beyond their comprehension or ability. America's education is sorely lacking and these people need to be removed, re-educated, then turned back out into society so they to can enjoy the misery they have helped bring to us. Go get 'em!
