

A Culture of Criminals

Quite apart from his foreign policy failures, his demonstrated lack of leadership or management skills, his history of indecisiveness and missed opportunities, his minimal knowledge of basic economics 101, and his arrogant adherence to the historically failed policies of central government controlled social and economic programs, the administration of Barak (peace be upon him) Obama, stands out unique in the annals of American Presidents as probably the most corrupt and criminal organization this side of Al Capone during the era of prohibition.

Obama (peace be upon him) has ushered into the American political scene a criminal culture unparalleled in our history. I do not forget the "Gold Ring" scams during the Grant administration or the Tea Pot Dome scandal during the administration of Warren G. Harding or even the Watergate scandal of Richard M. Nixon, or the perfidies of Bill Clinton. There are others but this is not a history lesson only a look into what now appears to be politics as usual gone awry.

Let's see if we can sort this out. To this day we still don't know who Obama (peace be upon him) really is. He went to an Ivy league college yet no one remembers him being there and his photo is not in the year books. He claims he is a Christian, adheres publicly to his Muslim fathers faith, but he's really just a golfer. Under pressure of Donald Trump, he produces a forged Hawaiian birth certificate (Hawaii does not issue both a Certificate of Live Birth and a Birth Certificate, that's a clue) and, immediately he is elected, he hires a tax cheat to be Secretary of the Treasury. Talk about putting a fox in the hen house! He has a Cabinet but fills the offices with people whose agenda are clearly Marxist, then surrounds himself with like minded "czars" to destroy every aspect of American life and replace it with Marx and Leninist socialism all the while bypassing our elected representatives. He hates people who produce and steals from them by onerous taxation to redistribute to those who don't saying, "It's only fair".

His crony filled agencies are promulgating onerous rules and regulations, in effect, driving up the cost of doing business by taxing us without representation and driving American businesses out of business. He authorizes criminal enterprises like the amateur led, ATF fumbled, gun walking program called Fast and Furious. That witch's brew now boiling in the cauldron should soon boil over and, hopefully, see many participants off to prison (they'll be the stupid ones). As the Gun Walker case boils, out of the sky drops the Lightsquared - Solyndra debacle. Oh, the humanity!

Is it never going to cease? I don't think so. The Labor movement now believe they have momentum and, as the new Jimmy Hoffa said, rhetorically to Obama (peace be upon him) who was present, "we are your army." Quick, contact Janet Napolitano and her goofy Homeland Security people; that sounds a lot like a terrorist threat! Some of those labor enforcement goons might even have been veterans, clearly the terrorist type.

Well, we're waiting! Right, don't hold your breath!

And speaking of corrupt, how about the most corrupt of all US Government organizations, except possibly the NFLB, the US Justice Department and its intrepid leader, Eric Holder. We can only hope and pray, but don't bet on it, that he will voluntarily depart his office, get fired or get arrested, tried, convicted and punished. But, who's going to arrest him, the FBI? Probably not! Obama's (peace be upon him) legacy will be a legacy of complete failure. He and he alone, has brought to us the "humiliating grip of corruption". It must end. It will end. Remember, freedom is the goal the constitution is the way! Go get 'em! (22 Sept 2011)
