

From the Chairman "Corruption"

By George McClellan

October 16, 2009

Hello my fellow conservatives and Republicans

"In every government on earth is some trace of human weakness, some germ of corruption and degeneracy, which cunning will discover, and wickedness insensibly open, cultivate and improve. Every government degenerates when trusted to the rulers of the people alone. The people themselves are its only safe depositories. And to render even them safe their minds must be improved to a certain degree"...Thomas Jefferson

Olympia Snowe, Senator from Maine, stands as a perfect example of why it is important for Americans to completely purge all incumbent politicians, of both parties, from the House and Senate. To paraphrase **Sen. Chuck Sumner**, "it's time to crack down"... on Congress and the Senate, identify and investigate the criminal elements among them, and try to see if some can be sent to jail. Well, we know this probably isn't going to happen so we must turn to our own district's and pay close attention to who wants to be our representatives, query them closely, investigate their backgrounds and support them if they meet the basic principles of conservatism. Actually, we must look toward the future when we can disassemble this monstrous governmental apparatus that is enslaving us and robbing us of our Constitutional freedoms.

Now, why would I contemplate jail as a suitable reward for corrupt politicians? Because they deserve it!. Rep. **Barney Frank**, and Sen. **Christopher Dodd** come to mind for example, because they both personally profited from the Fannie Mae and Freddie Mac schemes to fleece people who couldn't afford homes out of the money and their dreams. **Harry Reid**, who has profited from land sales in his home state of Nevada, not available to others, is yet another prime example. His is a cynical form of "insider trading", a crime if committed on wall street. Sen. **Barbara Boxer's** husband and the Senator, have profited in the millions of dollars in his construction business based upon his wife's position on influential Senate Committees that award contracts.

The list goes on and on, but how about this one for topping the list of criminal boondoggles: Democrats are adamantly opposed to drilling for oil anywhere in America. It will harm the innocent little creatures they say. But, it's okay to drill for oil in Brazil. Not only that, but through the US Export Bank, the Obama administration has guaranteed \$10 Billion to "Petrobras", Brazil's giant oil conglomerate, to drill for oil but not until **George Soros**, Obama's financial backer, has increased his holding in that Brazilian Company. **Soros** now owns, it is reported, 10 million shares of Petrobras. Not too shabby to have influence like that.

Before I get away from the subject of oil it is interesting to note that in April, 2008, the US Geological Survey issued a revision on a 1995 report on an oil find that covers parts of No. Dakota, western So. Dakota and eastern Montana estimated at 503 Billion barrels. It is called the Williston Basin, aka: "Brakken" and extends even into Canada.

But, according to the Stansberry Report of 4/20/06, yet another oil field has recently been discovered 1000 feet under the Rockies estimated at two trillion barrels, more oil than all the proven oil reserves in the world, including Brazils. see: [www.usgs.gov/newsroom/article.asp? ID= 1911](http://www.usgs.gov/newsroom/article.asp?ID=1911). On 08 August 2005, President **Bush** mandated drilling. What happened? The environmental do-gooders, apparently sponsored by OPEC, happened! Good luck Brazil!

And, speaking of influential people and oil, **Al Gore** turns up like a bad penny! A cursory examination of the record, conveniently available on the internet, will reveal a long association with Occidental Oil Company and the **Gore** Family, going back to **Al Gore, Sr.** Presently, Occidental Oil is seeking to drill oil in Columbia on land claimed by an indian tribe (U'wa) noted for their propensity of suicidal protection of their land. As a result, Columbia is embroiled in the tawdry business of guerilla warfare, (killing Indians)private armies, death and destruction, that sort of thing.

My interest in **Al Gore** and Occidental Oil goes back to **Gore's** Vice Presidential days when he was instrumental, during the Clinton Administration, of the governments selling the US Navy's reserve oil source, the Elk Hills Oilfield in Bakersfield, California in 1997 to: Ta, Da! Occidental Oil. The year before, the Occidental Oil CEO Ray Irani, donated \$100,000 to the DNC and was rewarded, apart from Elk Hills, two nights in the Lincoln Bedroom. Now, I must acknowledge straight away that the US Navy no longer burns NSFO (**Navy Standard Fuel Oil**) or Bunker Oil, as it was once known, as it has almost universally moved to kerosene (JP-4) for the faster and more efficient turbine engines in its warships, as well as nuclear fuel, but, fuel oil is easily refined into kerosene and the many other products from oil that enriches our daily lives. The point is Occidental was the lone recipient of the government's privatization interest in the Navy's oil. **Al Gore** dismisses his stock holdings in Occidental Oil as his inheritance. **Jimmy Carter's** Department of Energy is a front organization for permitting certain politically connected individuals to make their fortunes while that administration is still in power under the cover of promoting international energy policy, trade and investment. We shall examine the DOE in further detail in another essay.

And lastly, have you ever heard of Fisker Automotive Inc? It's a California startup company, partially sponsored by **Al Gore**, that recently received \$529 million to build hybrid sports cars in Finland. Well, that followed a \$465 million loan to California based Tesla Motors Inc., to build an electric roadster in Britain. (WSJ, 09/25/09). Will the wonders never cease? Oh, the cost of the hybrid will be \$89,000 a copy and the electric Roadster will be available for \$109,000. See Rep. Barney Frank for a convenient loan.

Ken Silverstein, writing for The Nation, in a May 3rd, 2000, article, outlined in excruciating detail, all about Al Gore's oil money. I believe the article is available at www.thenation.com/doc/2000052. (16 Oct 09)

George McClellan, Chairman, Gilmer Co. GOP
Go get'em!
